

Questionnaire Creator — Wireframes

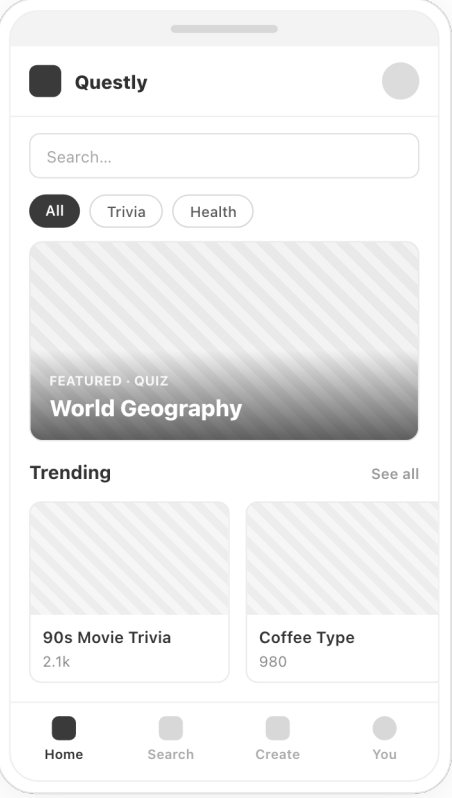

Mid-fi greyscale - responsive - structure & flow only (no color/branding yet)

1 - Homepage feed — discovery, featured + category rails

1B - Left-nav + discovery grid (desktop)

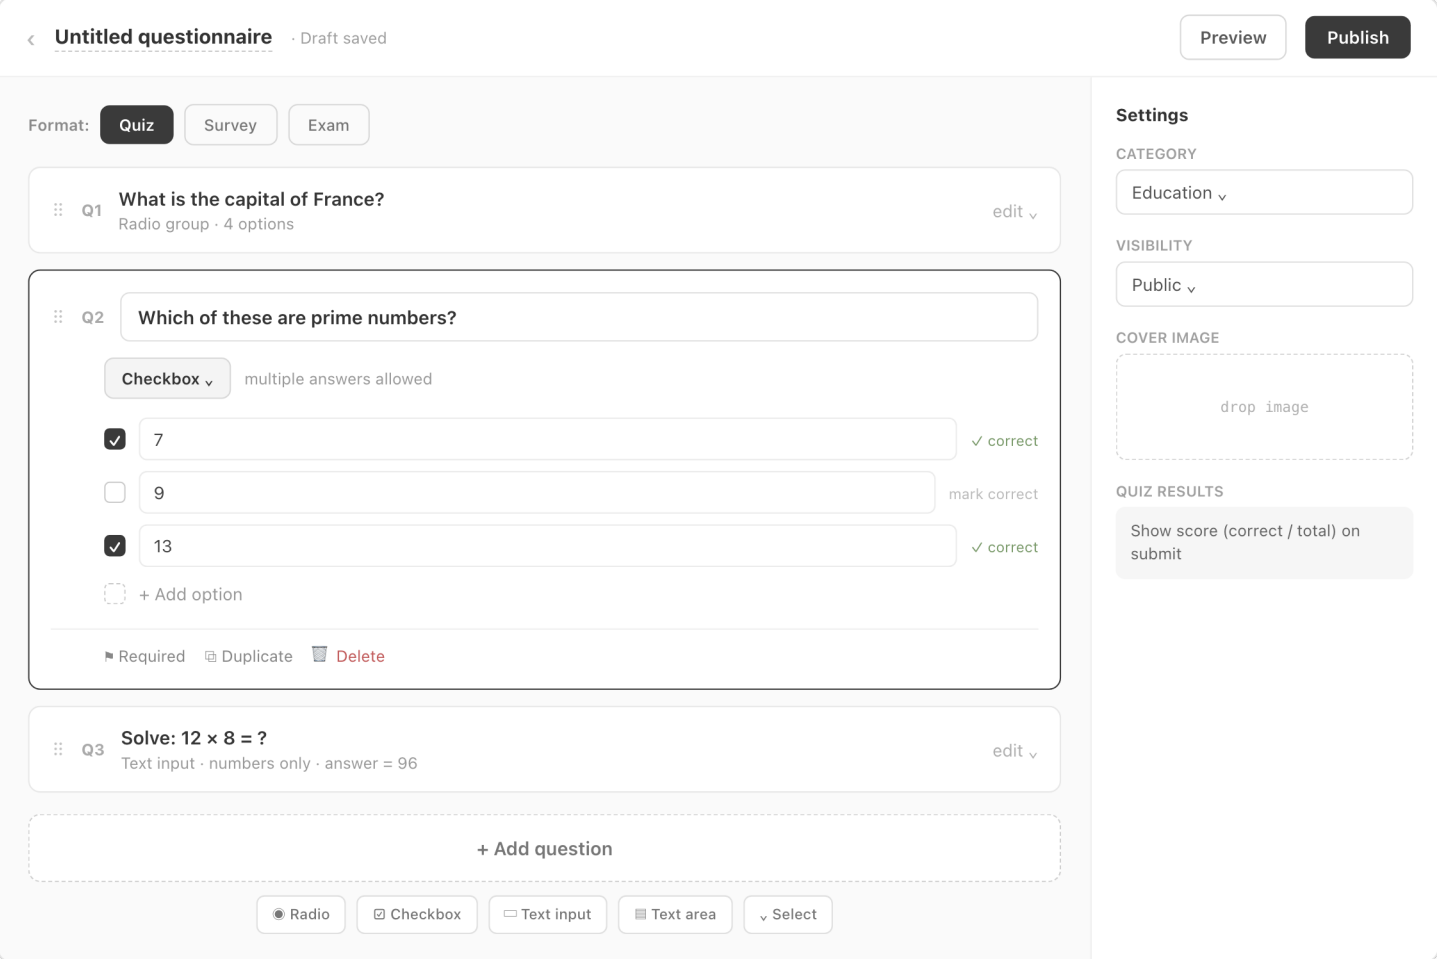

1C - Homepage (mobile)

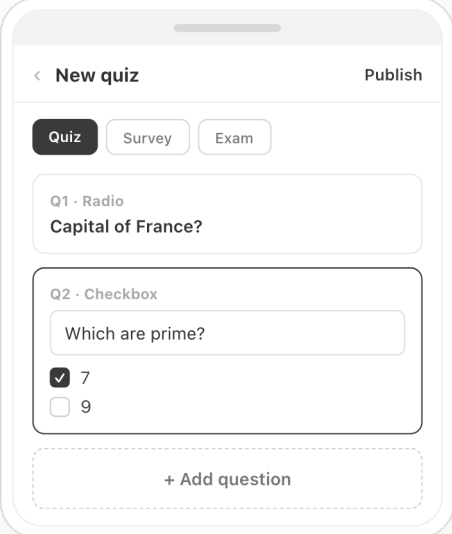

Sign-in only gates creating & saving results. Browsing the feed and taking is open to everyone.

2 - Questionnaire creation — form-builder, add/edit questions inline

2A - Builder list + settings rail (desktop)

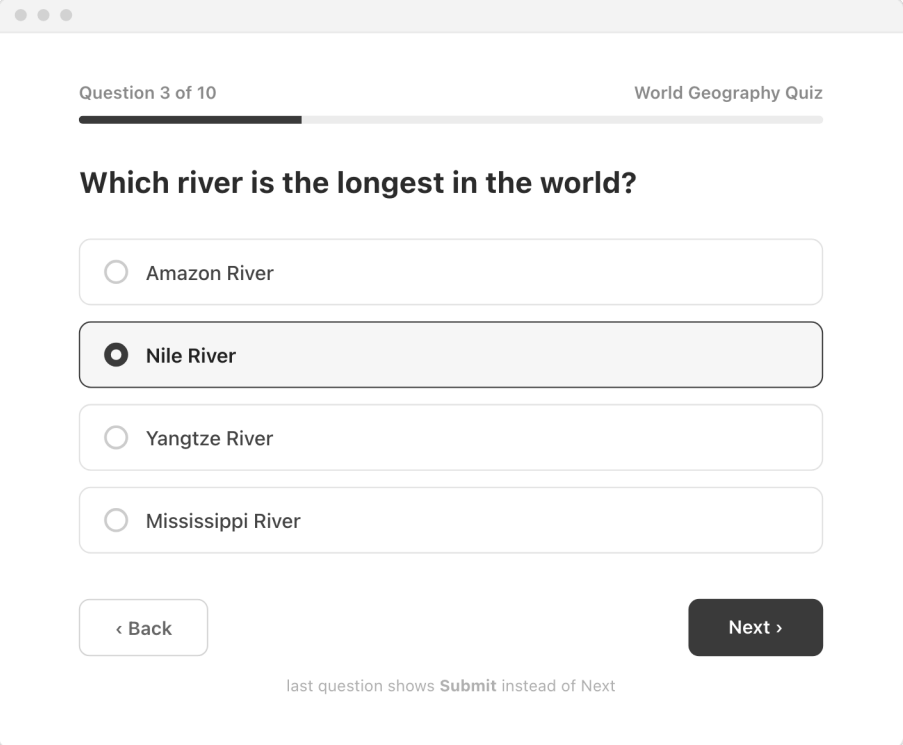

2C - Builder (mobile)

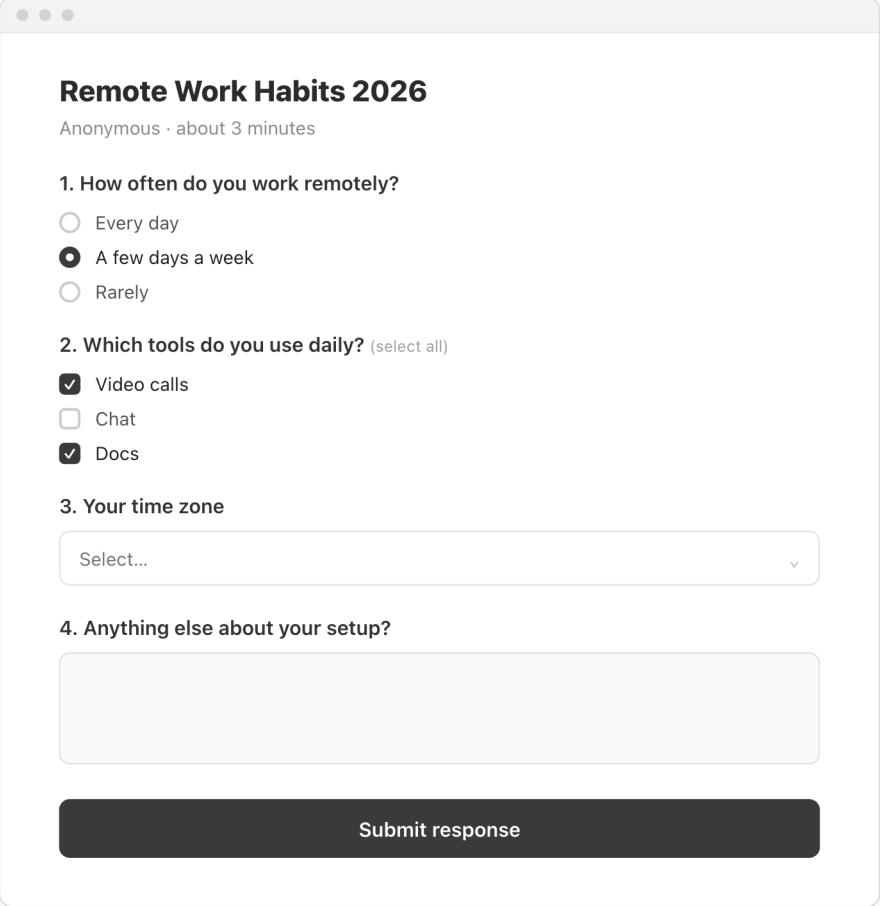

Field types are pluggable — the palette is built to add new types/variants later without redesign.

3 - Taking flows — one experience per format

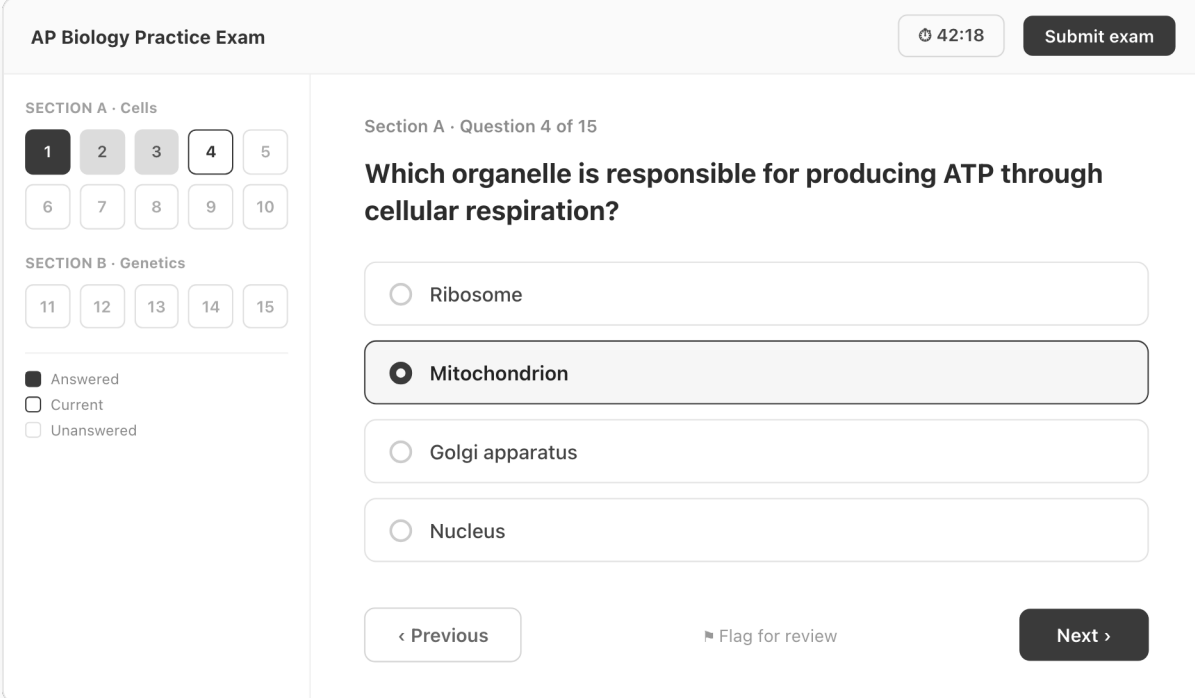

3A - QUIZ — one question at a time

3B - SURVEY — all questions, single page

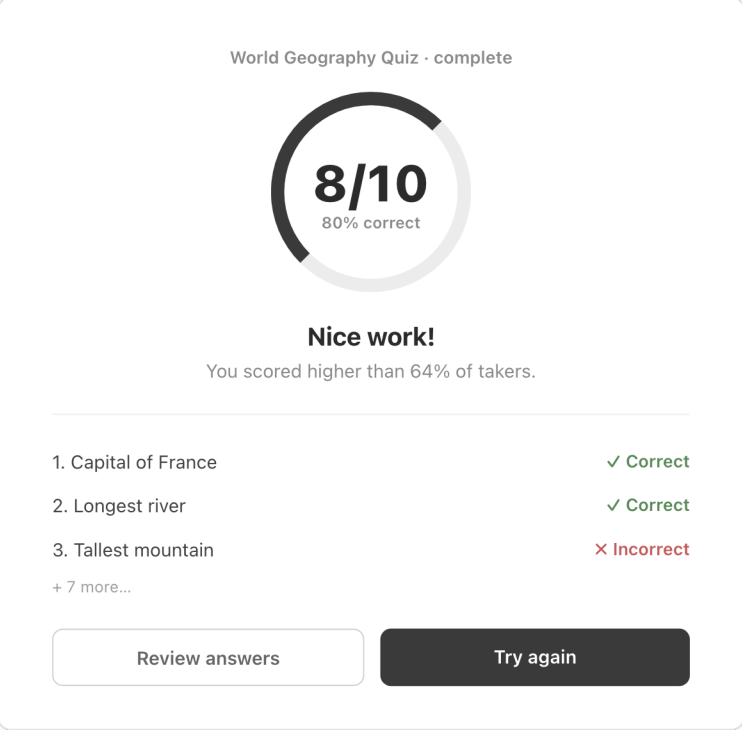

3C - EXAM — paginated + jump-to-question

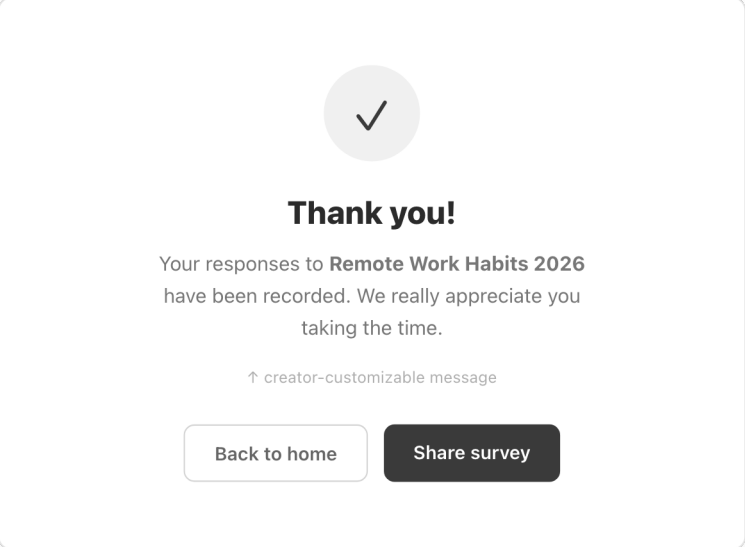

4 - Results pages — varies per format

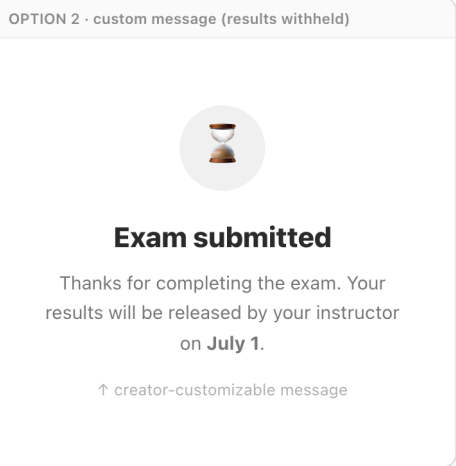

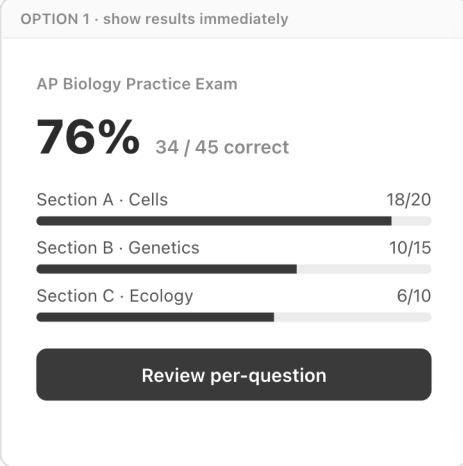

4A - QUIZ result — score

4B - SURVEY result — thank-you

4C - EXAM result — immediate score OR custom message

Exam creator picks the results behavior at publish time (a toggle in the settings rail of screen 2A).
